---

**Technical Skills** JavaScript, Node, MongoDB, Mongoose, Express, React, ChakraUI, Material-UI, HTML Ant Design, CSS, Bootstrap, Tailwind, Next.js, Swagger.

**Tools** Git, Github, Vs Code, Postman, Jira, Thunder-Client, Replit, Figma.

## EXPERIENCE

---

**Full Stack Developer**

November 2023- Present

Cosmofeed

*Gurugram, India*

- Demonstrated expertise in crafting engaging and interactive user experiences through the seamless integration of advanced frontend frameworks such as React.js while leveraging the capabilities of Next.js to create dynamic and responsive interfaces tailored to meet the evolving needs of modern users.
- Extensive experience in backend development using Node.js and Express.js, proficient in architecting and implementing scalable and robust server-side solutions to support complex web applications, ensuring seamless communication and data exchange between the client and server.
- Adept in full-stack development, ensuring cohesive solutions with a focus on scalability and optimal performance.

**Full Stack Web Developer**

July 2023- September 2023

Crudcook

*Chandigarh, India*

- Spearheaded the development and optimization of robust RESTful APIs, meticulously documenting each endpoint with Swagger to ensure comprehensive understanding and seamless integration within the system architecture.
- Demonstrated expertise in implementing advanced security measures, including dynamic rate limiting and pagination functionalities, alongside seamless integration of Stripe for secure payment processing, fortifying the platform against potential threats and ensuring a smooth user experience.
- Diligently resolved intricate bugs and augmented existing features in the frontend, prioritizing user satisfaction and system stability to maintain a seamless user experience.

## PROJECTS

---

**HealthyWay** ( [GitHub](#) )HealthyWay is a dynamic, full-stack website meticulously crafted with React, Material UI, Node.js, Express, and MongoDB. It serves as an innovative nutrition tracking tool, empowering users to monitor their daily caloric intake and various health metrics effectively. By leveraging advanced technologies and a user-centric design approach, HealthyWay facilitates users in achieving their health goals with ease and efficiency.

**Style-Incore** ( [GitHub](#) )A fashion-forward apparel brand and style community offering diverse clothing products and online services. Developed a responsive frontend using React and Chakra UI, enhancing user experience. Leveraged JavaScript for dynamic functionalities, fostering engagement and community growth.
